RE: Coronavirus Update

Dear Parents,

We are very fortunate at Bayview Glen to have a community like ours. Our families who had travelled or who had visitors from China self-identified and observed the two weeks of quarantine. We currently have families still in China. All have been in touch with the school and will also observe the two week quarantine period upon their return.

My preference as you know is to deal with families individually thereby preserving everyone's privacy and dignity. There are currently two identified cases in the city and no one in the community had any connection to either of these cases or Toronto Public Health would have informed us.

We continue to monitor absences and family travel, thoroughly clean all handrails, doorknobs, etc. regularly throughout the day. Also, we have been prescreening visitors prior to their arrival at the school. All of these practices have proven to be very effective in maintaining a healthy school environment.

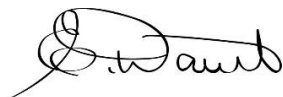

How can you help?

- Inform us of any travel to China but also areas where cases have been identified
- Use hand sanitizers available at reception
- Talk to your children about good hygiene, but don't frighten them
- Reinforce at home that no form of discrimination will be tolerated

I look forward to our continued partnership in dealing with this constantly evolving health challenge. Our goals are the same to keep everyone safe and healthy.

Thank you for your continued support and cooperation.

Sincerely,

Eileen Daunt  
Head of School
