

September 29, 2020

Dear Parents,

We have been informed by a JK family of the school that their child has tested positive for Covid-19. The student involved was tested based on a family health situation and was not symptomatic.

We were prepared for such an occurrence and we are hoping this is an isolated case.

Toronto Public Health advises that there is little to no risk associated with this case and the general population of the school.

Please continue to monitor your child for symptoms and continue to keep your child home if they are ill.

We will work closely with Toronto Public Health and will also be monitoring attendance patterns closely and reporting any anomalies back to them.

We know that this information causes anxiety and we know you will have many questions. But to protect the privacy of this student and the family, we are not permitted to disclose any personal information. I am happy to answer any other questions you may have.

Yours Sincerely,

Eileen Daunt
Head of School
