

Dear Parents,

The Minister of Education in conjunction with the Health Department has announced that publicly funded schools will remain closed until at least May 31st.

Bayview Glen as an Independent School falls under different legislation – the Emergency Management and Civil Protection Act which has set a date of return of May 14th. We expect that, as this date approaches, it will also be extended to the end of May.

We are now working on protocols for our “new normal” and our possible return to school. As we have not yet received the directives from the Toronto Public Health or the Ministry of Education, we are going ahead with what we anticipate will be required, in terms of social distancing, student hygiene, facility cleaning, arrivals and departures to name a few. As we get closer to that time, we will let you know our new processes.

I am very pleased to report based on your feedback that the online learning is going very well and should it be necessary will continue until the end of the year. However, we are really hopeful to end this year in person and that all the students have a chance to return to their school. We miss them.

If I can be of any assistance, do not hesitate to let me know.

Sincerely,

Eileen Daunt
Head of School
