

November 23, 2020

Dear Parents,

It was brought to our attention during the weekend that a student in Grade 7 and 9 tested positive for Covid-19.

They contracted the virus in a contact outside of school and have not been in school since Tuesday, November 17th.

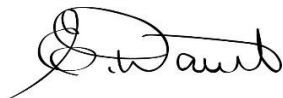

Following the direction from Toronto Public Health, all students and staff have been tested and to date are negative.

Given the timelines, Toronto Public Health has determined that there is no immediate danger and therefore, all cohort B will be back on campus on Thursday as planned.

We will keep you posted with any and all updates.

Please see attached a letter from Toronto Public Health.

Sincerely,

Eileen Daunt
Head of School
