

November 30, 2020

Dear Parents,

I am writing to you today based on a weekend communication from Toronto Public Health.

Given the recent news on community spread in our area, Toronto Public Health wants to emphasize the importance of our commitment to daily screening prior to coming to school. They are asking that we adopt a low threshold and that students study online if they have any symptoms.

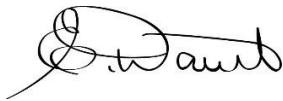

Please check their website:

- [TPH Student Screening Tool](#)
- [COVID-19 and oral health for update](#)

To date, the Bayview Glen community has been doing an amazing job, helping to keep everyone safe. With just thirteen days to go, let us keep our guard up, and go into the Holiday Season strong.

Thank you in advance for your commitment to helping keep everyone safe.

Sincerely,

Eileen Daunt  
Head of School
